PROFESSIONAL SUMMARY

Detail-oriented Software Engineer with a B.Tech in AI & Data Science and hands-on backend expertise. Currently working as a Software Developer at TCS, building microservices and supporting CI/CD automation pipelines. Experienced in integrating machine learning, AI agents, REST APIs, and robust backend architectures. Passionate about software craftsmanship, building intelligent agentic systems, and bridging standard software engineering with cutting-edge AI technologies.

TECHNICAL SKILLS

Languages & Backend: Core Java, Advanced Java, Spring Boot, REST APIs, Microservices
AI & Agentic Systems: Python, AI Agents, Agent Building, Machine Learning, Deep Learning, Gen AI
Databases & DevOps: MySQL, Git, Docker, CI/CD Pipelines
Frontend & Web: HTML, CSS, JavaScript, Next.js, GSAP, Framer Motion

WORK EXPERIENCE

Software Developer July 2025 - Present
Tata Consultancy Services (TCS)
- Developing reliable backend services and REST APIs to handle core transactional workflows.
- Designing scalable microservices and assisting in maintaining CI/CD pipelines.
- Debugging complex codebase issues and delivering backend improvements to client specifications.

AI/ML/DS Intern Feb 2024 - Apr 2024
Blackbuck Engineers Pvt. Ltd.
- Studied foundations of NLP, trained Deep Learning models, and built classification algorithms.
- Constructed data pre-processing and model evaluation pipelines for experimental data.

Software Full Stack Intern Jun 2023 - Aug 2023
Henotic Technology Pvt. Ltd.
- Developed full-stack practices, integrating MySQL databases with Java backend controllers.

FEATURED PROJECTS

AI-Connect | OSCAR (Enterprise Project) Java, REST APIs, Mediator Proxy
Implemented location-based network performance evaluation logic and Mediator Proxy services for high-availability enterprise services.

UTS - Unified Topology Service (Enterprise Project) Spring Boot, Microservices, Migration
Built a centralized microservice platform consolidating circuit, network topology, and inventory data into standardized APIs.

Drug Recommendation System Python, Machine Learning, Sentiment Analysis
Built an NLP sentiment analysis model on drug reviews to recommend optimal medications based on patient experiences.

EDUCATION

B.Tech in Artificial Intelligence & Data Science 2020 - 2024
SRKR Engineering College, Bhimavaram, AP **CGPA: 8.72 / 10**

Intermediate (MPC) 2018 - 2020
Sri Chaitanya College, Vijayawada, AP **GPA: 9.5 / 10**

CERTIFICATIONS & KEY ACHIEVEMENTS

- IIT Madras: Certification in Python for Data Science | Infosys Springboard: Data Science Certification
- TCS Recognition: Star of the Month Award | Young Intrapreneur Award (TCS)
- HackerRank: 5-Star Python Developer (chinthapallisvn1) | Research Paper: London Metropolitan University Conference
